

**for a rewarding career,
add chevron oronite.**

Chevron Oronite is a leading developer, manufacturer and marketer of fuel and lubricant additives, delivering solutions to customers globally. Chevron Oronite is a wholly owned subsidiary of Chevron Corporation, providing you with the advantages of working for one of the world's largest corporations, while sharing in a common vision to be a company most admired for its people, partnership and performance. Chevron Oronite is a unique place to work within Chevron, offering opportunities to engage in technologically advanced work at international locations while giving you plenty of options for personal and professional growth.

While Chevron Oronite recruits talent across various industry segments, we place a stronger emphasis on disciplines such as product formulation and development, commercialization, manufacturing, and supply chain management, including:

- Chemistry
- Engineering
- Maintenance
- Operations
- Finance
- IT
- Sales and Marketing
- Customer Services and more

Chevron Oronite’s compensation and benefits programs are designed to be competitive within local labor markets and to meet the needs of employees wherever they live. We learn from and respect the cultures in which we operate. We have an inclusive work experience that values uniqueness and diversity. If you come to work for Chevron Oronite, here are a few of the added benefits that you can expect:

- An environment where employees collaborate in high-performing teams.
- A workplace committed to your professional development and support and tools to create your own career path.
- Access to a world of Chevron Corporation job opportunities in 180 countries.

The Oronite brand started over a 100 years ago as a line of specialty products. Today, Chevron Oronite produces gasoline and diesel fuel additives, viscosity modifiers, components and specialty chemicals. Our performance additives are used in:

- | | |
